_____ Longarm Quilter May Select Appropriate Design - indicate if for: MALE - FEMALE or COUPLE

\$ \$\$ \$\$\$

Circle pricing desired (Price will also indicate density of quilting preferred from \$.0225 to .03 psi for edge to edge)

Thread Color : _____

Additional: _____

(binding, seam back etc.) _____

Please indicate if you would like to be contacted before quilting begins.

Prices Subject to Change Without Notice

Money Saving Tips: All seams are sewn, top and backing square and pressed. Backins seams 1/2", pressed open.

*Centered backs - Is is not possible to center a back to a top as they are loaded on separate rollers. In order to center quilt must be pre-basted by longarmer and a fee will be added to invoice for this service. There is still no quarantee it will be centered as we cannot control the quilting "draw up" factor.

Please be aware that longarms are mechanical devices and the possibility exists that a problem may occur (needle breaking) and cause damage to your quilt top and backing. Every effort is made to avoid this happening, but the possibility still exists.
